# Freedom Ring Bath Assist™

US Patent Number: 6,986,177

- The Freedom Ring Bath Assist™ was developed to enable those in need of assistance in maneuvering from their wheelchair to the toilet or bath.
- This innovative patented ring design allows a full 180-degree continuous range of motion.
- The Freedom Ring Bath Assist™ has been tested at over 300 pounds at the end of the ring.

*Helping* you  
maintain your *freedom*  
in all stages of *life*

Why the Freedom Ring™ should be your choice of bath assist equipment:

- Mounts safely and securely between two wall studs.
- Folds up out of the way when not in use.

- Ring can be adjusted laterally along the dovetail bar to meet any length of reach.

- Positioned directly in front of the user where they have the most strength.
- Stabilizes and supports user while lowering.

- Can easily support the weight of the user if they become dizzy or need to rest.
